PROJECTS

1 **My Clinic App** click to Open
A MERN fullstack CRUD application I made for the dental clinic I work part-time at. It allows us to store patients' data in an organized database, allows searching patients using various criteria and filters, and exports data to a CSV file.

2 **Personal Bookshelf** click to Open
Allows users to search books using Open Library API. also users can save their favourite books in a personal bookshelf.

WEB EXTENSION

1 **Webpage Doodler** click to Open
Webpage Doodler is a Chrome extension that allows users to draw and doodle on web pages directly within their browser they can choose from multiple pen colors uisng color picker , erase or clear doodle marks , save the doodled webpage in a jpeg image . With this extension, users can express their creativity.

MINI PROJECTS

1 **TrackasyouSpend** click to Open
It is a site that allows users to track their money as they spend it. Very helpful in tracking and saving money.

2 **SignScraper** click to open
SignScraper is a site that allows users to sign their signature on a canvas. You can download that sign with its background removed, hence the name SignScraper.

* **Technologies Used in Above Projects**
React, Node.js, Express, JavaScript,MongoDB HTML, CSS.

EXTRA CURRICULAR

1
Participated in multiple inter-collegiate festivals and won various prizes in quizzes, cricket, and treasure hunts.

HOBBIES

1
Current affairs, International Relations

2
